

Transform Your Horse!

From Terrified Traveller . . .

To Globe Trotter!

with the incredible Travel Mate®

If your horse is a terrible loader, loathes the float and truck, or kicks, shakes, sweats or quivers when you have to take him anywhere, The Horse Herbalist has the answer!

No need to get nervous every time you have to take your horse anywhere. Simply adding a little Travel Mate to your horse's feed for a few days leading up to the off and your horse will be cool, calm and collected no matter how long or short the journey. What a relief!

'My horse was a terrible traveller, kicking from beginning to end of any trip. We put him on Travel Mate and then did a 6000 km return trip to compete up in Northern Queensland and he was a different horse! Travelled beautifully, competed brilliantly and the whole trip was stress free because he was so calm and easy - thank you!'
