

Transform Your Horse in 2009!

Did you know that with correctly balanced and prepared herbal mixtures, flower remedy combinations and topical applications you can not only radically improve the health and performance of your horse, but actually effect lasting change to his mental, emotional and physical health?

From Blue...

To Bounce!

As part of The Horse Herbalist's ongoing commitment to the health and wellbeing of horses everywhere, and in response to popular demand, we have just launched a limited range of our unique herbal remedies, ointments, flower remedy combinations and washes for general purchase from www.thehorseherbalist.com. All our products are made from the finest quality herbs available in the world today - and can be used by humans too!

☞ *Settle Petal*

When you, or your horse, are overexcited, nervous, spooky, restless, scared, stressed or overwrought - for whatever reason (or even no reason at all!), this carefully crafted blend of herbs and essences assists in calming the system and strengthening the nerves.

☞ *Positive Power*

High energy maintenance for performance horses. This balancing tonic aims to enhance endurance, energy, recovery and wellbeing as well as reducing the impact of physical, mental and environmental stressors. May assist in lowering the heart rate and respiratory frequency, reducing creatine kinase, lactic acid build up and increasing plasma glucose and performance.

☞ *Bug Buster*

Whenever you suspect or see signs of any form of infection in your horse or fellow human, get out the Bug Buster! This powerful potion aids in boosting the immune system, attacking bacteria and digging out infection, allowing the body to mobilise its own natural healing ability to effect rapid relief and recovery. This highly effective mixture includes the most potent Echinacea available in the world today.

☞ *Cough it Up!*

If your horse does succumb to the nasal discharge and wracking cough of a cold or flu, this blend of herbs with proven expectorant abilities will help your horse remove the mucus from his lungs, airways and nasal passages, and stimulate the immune system to motivate the body's own natural healing response.

☞ *To the Bone*

Whether your horse has old bones, arthritic tendencies or simply stiff joints, this herbal helper will put the spring back into his step and the bounce back into his bones.

☞ *Wheeze Ease*

For horses with sensitive respiratory tracts and a tendency to allergies, wheezy airways or dust susceptibilities. May assist in keeping airways clear in competitive situations.

☞ *Travel Mate*

For horses who would prefer to stay at home! This soothing blend of herbs and essences will help even the most reluctant or recalcitrant traveller to relax and enjoy the ride!

☞ *Liver and Spleen Spring Clean*

Sluggish Liver function can underpin a myriad of symptoms - temperament changes, skin conditions, fatigue, not finishing off races, poor coat, colour etc, diarrhoea and colitis. Put the spring back in your horse's step, and the gleam back in his eye and coat with a Liver and Spleen Spring Clean from The Horse Herbalist.

☞ *Ointments*

☞ *Skin Deep*

This powerful blend of skin soothing and tissue healing herbs can be used for all skin abrasions, cuts, wounds, welts or afflictions (eczema, itch etc.) Most of our clients simply call it 'Magic Cream'!

☞ *Deep Treat*

For sprains, strains and sore, tired or overworked muscles. This powerful ointment penetrates deep into the muscles, ligaments and joints to relieve pain or stiffness. Equally effective for riders!

☞ *Flower Remedies*

Work even better for horses than they do for humans (and don't swab)!

☞ *What A Shock!*

Perfect for both of you after an accident or incident, trauma or tantrum . . . when your horse is working himself up into a lather about something - whether real or imagined!

☞ *No More Tears*

Loss and grief are a part of life for both horses and humans. This powerful combination of Flower Remedies will help you adjust to loss and allow you to move through the often overwhelming emotions associated with grief.

☞ *No More Fears*

For both nervous horse and rider! This gentle blend of Flower Essences will give you both a confidence boost and smooth out those niggling fears so you feel comfortable in any situation.

☞ *And the miraculous . . .*

☞ *Willy Wash*

Now keeping your stallion or gelding clean is easy! Simply spray the solution up into the sheath and let the wash do the rest. No need for peeling, scrubbing or soaping . . . Magic!

To really get to the root of stubborn, specific physical or behavioural imbalances we always recommend our unique hair testing, individual herbal mixtures and nutritional ratings guide.
