2007 Earlybird Course Pricing— One Week Left!

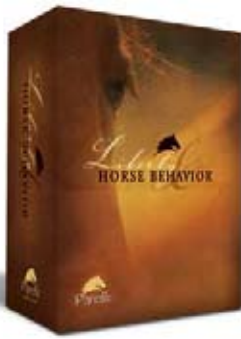

The Parelli Centers continue to lead the natural horsemanship industry with their cutting edge content and innovative teaching style. Presented in three Courses, these lessons are designed to propel students forward on their journey to harmony and success with horses.

"Let me start with how amazing I found the format to be. In our closing ceremony I tried to explain how deeply I was affected by this. The best way I found to describe it was to say that the remudas in the morning gave us undemanding time/time for personal expression, then the classroom sessions prepared us mentally, the demos and simulations sent us with purpose, and the afternoons were just a big allow. We were given the tools and ideas, and then allowed to approach and retreat from the

concepts as we saw fit. Upon reflection, I was astonished at how little I told my horse to do during the course of our stay, but rather how much he offered when I set it up and allowed him to find his way. As students we were not pressured to do or be anything while we were there, other than students. This gave me tremendous permission at a deep level to not put undue pressure on my horse, the full effects of which I didn't comprehend until the course was over.

"Now home, I find that I am a slightly different person. I am a more substantial individual, both mentally and emotionally. The proof is in the pudding, so to speak. My horse and I are seeing amazing results in each other. There is nothing else quite like this program, I'm excited to be a part of it!"—Michelle Manshardt

Liberty & Horse Behavior Home Study Program

This revolutionary information was first launched at our Parelli Centers last Fall with amazing results. Now, we have packaged that information for the home study student. Priced at a fraction of the cost of attending the Course, Liberty & Horse Behavior gives you the opportunity to experience this knowledge in the comfort of your own home at your own pace or as a wonderful reference tool if you have attended the Course. The Liberty & Horse Behavior program

includes over 19 hours of education, led by Linda and Pat Parelli, including presentations never before seen, except by Pat's top instructors and inner circle.

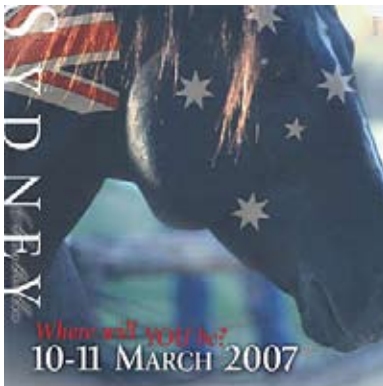

Featured Disc: Part I, DVD 1

Begin your journey through the equine mind with Linda and Pat Parelli. Pat begins by addressing the most important message at the heart of this program, "Every prey animal is born with an innate fear of predators."

Pat then talks about the four main influences that make up a horse's horsenality: Innate Characteristics, Learned Behavior, Environment and Spirit. Apply this knowledge with Pat and Linda as they demonstrate with four very different horsenalties.

Disc 1 concludes with a workshop where Linda suggests a different approach for revealing your horse's horsenality.

Hurry, Savvy Club members, experience Liberty & Horse Behavior at home for the special price of \$499 through September 30, 2006. A savings of \$500!

October Savvy Times

Coming up in the October issue of Savvy Times magazine, Savvy Club members can look forward to Linda's educational article about Left Brain dominant horses.

"There was a time when I thought right brain horses were very challenging. But the more I teach and learn and advance, the more I see that left brain horses can be even more challenging. They're cool, calm, confident and learn quickly. BUT...they can be 'stubborn', easily bored, uncooperative, pushy, mouthy, domineering, aggressive, and way too smart for us until we get more savvy!"—Linda Parelli

If you are an Existing Member and it is your first time to the new site, we need you to re-register with us. Please click on the link that says "Are you an existing member and this is the first time to the new site? Click Here." You will then be asked to enter your email address. Be sure that it's the same email address that is associated with your Savvy Club account. This is also the email address at which e-News is sent to you. While a membership may be composed of a family unit, it is the main member's email address that the system will identify.

In the next step you will be asked to do one of three things based on what the system finds associated with your email address:

1. If it finds you had a username in the Forum for the previous Club site, it will tell you that username. Please make record of this username. It will also ask you to create a new password. Type the password in and then re-enter it into the second field to confirm it. The system is case sensitive and requires a minimum of six characters.
2. If it cannot find a former Forum username but recognizes your email address, then it will ask you to create a username and password. Please make note of what you choose for your username and password.
3. If it does not recognize your email address you will need to call 1-800-642-3335 or email savvyclub@parelli.com for customer assistance. It is possible that we have the wrong email address registered for you or need to verify your membership status.

Once you have successfully completed option one or two above, you will be able to log in on the main page with the username and password that you chose.

If you are a New Member please click the link that says, "Are you a New Member? Click Here." It will ask you to enter the email address you gave us when you signed up for the Savvy Club. It will check to see if you are an active Savvy Club member, and will ask you to create a Username and Password. Please make note of what Username and Password you choose. You will then be able to log into the Savvy Club site with your registered Username and Password. If it cannot verify your email address, see option three above.

Type Tips: If the wording on the Savvy Club site appears to be distorted (words and/or pictures lying on top of each other or the type is too small to read), you will want to change your text size settings. Following are simple steps for changing type size in the browsers that we recommend.
